Dear Js,

Two envelopes clips this a.m., with three on affs, NYT on Breslin, Chandler's predictichs, etc.

Felker is the strange on in this. He did some pretty nasty stuff before the Trib folded. So, without knowing anything about what might be bugging Breslin now, Felker should be more than enough.

I'll send these to NY friend who may have answers. Two similar mentions on successive days in same column seems interesting. My friend was ther out of country and would have missed.

Thanks, EM
